Cumulative contents

Regular Papers

The relaxation effect as observed on lipid suspensions of low polydispersity
E.M. Egorova, L.L. Yakover and T.F. Svitova (Russia) 1

Protein flux across the membrane of single secretion granules
K.K. Goncz and S.S. Rothman (USA) 7

Binding of ethylenediamine to phosphatidylserine is inhibitory to Na^+/K^+-ATPase
F.M.A.H. Schuurmans Stekhoven, G.I. Tesser, G. Ramsteyn, H.G.P. Swarts and J.J.H.H.M. De Pont (Netherlands) 17

Triggered release of hydrophilic agents from plasmalogen liposomes using visible light or acid
V.C. Anderson and D.H. Thompson (USA) 33

Effect of oligomers of ethylene glycol on thermotropic phase transition of dipalmitoylphosphatidylcholine multilamellar vesicles
M. Yamazaki, N. Kashiwagi, M. Miyazu and T. Asano (Japan) 43

Presence of small GTP-binding proteins in the peroxisomal membrane
K. Verheyden, M. Fransen, P.P. Van Veldhoven and G.P. Mannaerts (Belgium) 48

A new surfactant series, the *N*-alkylamino-1-deoxylactitols: application for extraction of 'op' opiate receptors from frog brain
R. Garelli-Calvet, P. Latgé, I. Rico, A. Lattes and A. Puget (France) 55

Subcellular distribution of carbonic anhydrase in the enterocyte of the rabbit ileum and the Caco-2 cell. Evidence for the presence of two isozymes bound to brush-border membranes
H. Aguenaou and D.A. Colin (France) 59

The role of anion channels in the mechanism of acrosome reaction in bull spermatozoa
B. Spira and H. Breitbart (Israel) 65

The role of chloride in taurine transport across the human placental brush-border membrane
M.S. Moyer, N. Insler and R. Dumaswala (USA) 74

Effect of lipidic factors on membrane cholesterol topology – mode of binding of θ-toxin to cholesterol in liposomes
Y. Ohno-Iwashita, M. Iwamoto, S. Ando and S. Iwashita (Japan) 81

Sterol specific inactivation of gramicidin A induced membrane cation permeability
L.V. Schagina, Y.E. Korchev, A.E. Grinfeldt, A.A. Lev and K. Blaskó (Russia, Hungary) 91

Tellurite-induced damage of the erythrocyte membrane. Manifestations and mechanisms
B. Deuticke, P. Lütkemeier and B. Poser (Germany) 97

Regular Papers

A novel form of glycosylphosphatidylinositol-anchor converting activity with a specificity of a phospholipase D in mammalian liver membranes
M. Heller, S. Bieri and U. Brodbeck (Switzerland) 109

Morphological characterization of exovesicles and endovesicles released from human erythrocytes following treatment with amphiphiles
H. Hägerstrand and B. Isomaa (Finland) 117

Induction of cystine transport in bovine pulmonary artery endothelial cells by sodium arsenite
S.M. Deneke (USA) 127

Stimulation-enhanced 3-*O*-methylglucose efflux from the frog sartorius: kinetics and properties of the system
G.W. Booz and C.P. Bianchi (USA) 132

Quantitation of physical-chemical properties of the aqueous phase inside the phoE ionic channel
M. Gutman, Y. Tsfadia, A. Masad and E. Nachliel (Israel) 141

ATPase activity of partially purified P-glycoprotein from multidrug-resistant Chinese hamster ovary cells
C.A. Doige, X. Yu and F.J. Sharom (Canada) 149

Transport properties of P-glycoprotein in plasma membrane vesicles from multidrug-resistant Chinese hamster ovary cells
C.A. Doige and F.J. Sharom (Canada) 161

Identification of a broad-specificity nucleoside transporter with affinity for the sugar moiety in *Giardia intestinalis* trophozoites
R.A. Davey, G. Mayrhofer and P.L. Ey (Australia) 172

A low-affinity nucleobase transporter in the protozoan parasite *Giardia intestinalis*
P.L. Ey, R.A. Davey and G.A. Duffield (Australia) 179

The effects of 1,25-dihydroxyvitamin D-3 deficiency on Ca^{2+}-transport and Ca^{2+}-uptake into brush-border membrane vesicles from pig small intestine
R. Kaune, I. Kassianoff, B. Schröder and J. Harmeyer (Germany) 187

Opioid peptide interactions with lipid bilayer membranes
V. Ramaswami, R.C. Haaseth, T.O. Matsunaga, V.J. Hruby and D.F. O'Brien (USA) 195

In vitro cytotoxicity of liposome-encapsulated doxorubicin: dependence on liposome composition and drug release
A.T. Horowitz, Y. Barenholz and A.A. Gabizon (Israel) 203

G_{M1b} and G_{M1b}-GalNAc: major gangliosides of murine-derived macrophage-like WEHI-3 cells
H.C. Yohe, L.J. Macala, G. Giordano and W.J. McMurray (USA) 210

Cumulative Contents, Vol. 1109 219
